Powell Golden Dragon

Spring 2008

Powell Golden Dragon Skateboards
30 South La Patera Lane, Santa Barbara, CA, 93117, tel: (805) 964-1330, fax: (805) 964-0511
Distributed by Skate One, Eastern Skate Supply, AWH, Ocean Avenue, J& D.

POWELL GOLDEN DRAGON skateboards provide excellent performance and durability at an entry level price. They are a smart choice for price-conscious experienced skaters, and the perfect first skateboard for beginners. Powell Golden Dragon is only offered to serious skateboard dealers who can educate new skaters, offer a broad selection of quality skateboard products and components, and service what they sell. PGD was created to allow real skateboard shops to offer a superior alternative to the price conscious and first time skater, and are not available from a mass merchant. PGD is designed and tested in California, and manufactured under strict guidance in our Chinese factory, using our AirLam™ presses, maple veneer and glue. The resulting 7-ply deck is the best produced in Asia and we stand behind it with confidence. In fact, each component has been designed and built to our demanding specifications and then tested during production to ensure consistent high quality. Just like our outstanding REDS bearings, Powell Golden Dragon skateboards are well received and respected as a quality Skate One product.PGD skateboards are offered in both premium, North American, hard rock maple or hard yellow birch. Our birch is a premium, northern Chinese hardwood that offers the strength of maple at a significant savings. Try our birch construction and compare it to any maple skateboard. We think you will be as pleased as we are with its performance and price. Both birch and maple are available in four popular shapes and sizes.

Components

PGD Bearings are precision ground and super-finished chromium bearing steel, with high speed ball retainers, protective rubber shields and Speed Cream® lubricant.

PGD Wheels are made from very high rebound, durable, cast polyurethane for excellent grip and roll.

PGD Trucks are permanent mold cast 356 alloy aluminum bodied, with hardened carbon steel axle and king pin, and very high rebound cushions for smooth, stable turns.

PGD Griptape is durable and die-cut around a full color top graphic.
